

SK FINANCE LIMITED

INTERNSHIP RECORD BOOK

Name	Abhishek Singh Shekhawat
Employee / Intern Code	SKM255
Phone Number	+91 9928130195
Email ID	abhisheksinghshekhawat63@gmail.com
Course	B.Tech in Computer Science & Engineering
Department	Information Technology
Internship Duration	3 Months
From	8 June 2026
To	8 September 2026

FIRST DAY JOINING REPORT

Name of Candidate :	Abhishek Singh Shekhawat
Course :	BTech CSE
Name of Company :	SK Finance Limited
Address of Company :	SK Finance Head Office, Near Khasa Kothi Circle, Jaipur, Rajasthan - 302001
Website :	www.skfin.in
Phone No :	18001039039
E-mail :	info@skfin.in

Contact Details

A. HR Manager :

Name :	Manisha Sharma
Address :	SK Finance Head Office, Jaipur
Phone Number :	+91 9875899388
Email :	Manisha.sharma@skfin.in

B. Reporting Manager :

Name :	Kshitij Joshi
Address :	SK Finance Head Office, Jaipur
Phone Number :	+91 9023344409
Email :	Kshitij.joshi@skfin.in

I hereby confirm that I, **Abhishek Singh Shekhawat**, have formally joined **SK Finance Limited** on **08 June 2026** for my Internship program. I declare that I will strictly abide by all the code of conduct, intellectual property policies, attendance protocols, and confidentiality rules of the organization.

Date: 08 June 2026

Name: Abhishek Singh Shekhawat

Signature: ABHISHEK

CANDIDATE'S REPORT ABOUT COMPANY AND INTERNSHIP

Name of Student : Abhishek Singh Shekhawat

Name of Organization : SK Finance Limited

Duration : 3 Months

Timing : 9:30 am - 6:30 pm

Projects/Assignment/Learnings/Task:

S. No.	Project / Assignment Name	Tech Stack & Tools	Key Contributions / Tasks Done	Outcomes & Remarks
01	Training (Frontend Core)	HTTP, HTML5, CSS3, Tailwind CSS	Learned web fundamentals, HTML5 semantic structure, forms, box model, Flexbox/Grid, and responsive utility styling via Tailwind CSS.	Understood client-server web architecture, DOM structure, inline vs block elements, and responsive layout styling.
02	Skynet Web QA	Chrome DevTools, Web Browsers, Bug report	Performed manual UI/UX and functional testing on Skynet Web, Chat UI, and Admin Panel; logged visual glitches and rendering anomalies.	Submitted structured UI bug reports with annotated screenshots; verified fixes with the team.
03	Training (JS & Frontend Frameworks)	JavaScript (ES6+), TypeScript, React.js, Next.js, NPM	Studied JavaScript execution context, DOM APIs, TypeScript types, React component lifecycle/hooks, Next.js (SSR vs CSR), and NPM packages.	Built a solid understanding of modern frontend development, component-driven UI, and client/server rendering.

S. No.	Project / Assignment Name	Tech Stack & Tools	Key Contributions / Tasks Done	Outcomes & Remarks
04	LDMS MVP UI	HTML5, Tailwind CSS, JavaScript	Developed a 4-page responsive MVP user interface for the Loan Disbursal Management System based on PRD provided by Lokesh Jha.	Delivered clean, mobile-responsive financial dashboard screens and loan tracking input tables on schedule.
05	PD Application QA	Black-Box QA, Mobile/Web UI, Defect Matrix	Executed functional and UI/UX testing on the PD application; documented flow blockers, input boundary errors, and navigation issues.	Formally compiled and submitted the PD Application Major/Minor UI Defect Audit Report.
06	Training & Prompt Injection Audit	Skynet AI, LLM Prompt Security, Markdown	Researched direct and indirect prompt injection vectors; executed adversarial test cases against Skynet's RAG architecture.	Identified prompt leakage risks; delivered a vulnerability assessment report on Skynet LLM safety.
07	Training (Git, GitHub & Skill Agents)	Git CLI, GitHub, Markdown (skill.md)	Practiced Git version control workflows (init, add, commit, push, branch, merge, clone) and learned skill.md architecture for AI agent workflows.	Established standard version control practices and structured autonomous agent skill definition making.

S. No.	Project / Assignment Name	Tech Stack & Tools	Key Contributions / Tasks Done	Outcomes & Remarks
08	LangChain Agent Testing	LangChain, Streamlit, Multi-Agent Frameworks	Conducted black-box functional testing on 7 LangChain agents deployed on Streamlit; evaluated decision trees, tool-call loops, and memory persistence.	Submitted individual evaluation reports for all 7 agents to Lead Mentor Mr. Kshitij with edge-case recommendations.
09	Training (Backend & Relational DB)	Node.js, Express.js, PostgreSQL, SQL, ERD Tools	Learned MVC backend architecture (Routers, Middlewares, Controllers, Services, Repositories); designed normalized relational ERDs and SQL schemas.	Built a foundational To-Do CRUD app and architected an "AI Nervous System" MVP backend pipeline.
10	Training (NoSQL Databases)	MongoDB, Mongoose ODM, BSON, Compass	Studied document-oriented database models, collections, BSON formatting, schema validations, and MongoDB connection handling with Node.js.	Acquired hands-on proficiency in working with both SQL (relational) and NoSQL (document) databases.
11	Skynet AI Security & Guardrails	JavaScript Console Scripts, Skynet Chat, Guardrails	Created 50+ adversarial Testcases in Markdown; built custom JS console scripts to automate prompt execution in chat; engineered defensive guardrails.	Successfully delivered security test logs, vulnerability analysis report, and programmatic LLM Guardrail rulesets (.md).

S. No.	Project / Assignment Name	Tech Stack & Tools	Key Contributions / Tasks Done	Outcomes & Remarks
12	Skynet Android App QA	Android OS, APK Testing, Mobile DevTools	Performed black-box functional, UI/UX, and session stability testing on the Skynet Android APK across various screen orientations.	Logged mobile-specific UI rendering and token lifecycle bugs; submitted complete mobile QA report.
13	Final Capstone Project ("Blackswords Gamma")	Next.js, Node/Express, PostgreSQL, Ollama LLMs, ComfyUI	Developed a full-stack studio-grade AI image generator & community platform featuring Prompt Enhancer, Image Studio, Public Feed, and User Gallery.	Successfully built and presented an end-to-end full-stack AI media generation platform demonstrating all internship skills.
14	RPA App UI Revamping	Next.js, TypeScript, Tailwind CSS, Responsive Design	Redesigned the internal RPA web application UI with modern execution drawers, responsive sidebar, dynamic metadata, and desktop/mobile layouts.	Delivered production-ready, clean RPA UI codebase to Deepanshu Soni.
15	Project (minimathly NPM Library)	Node.js, NPM Registry, ES Modules, Rollup	Built and packaged an open-source JavaScript mathematical calculation utility library (arithmetics, percentage, parity checking) using ES Modules.	Published live on the public NPM registry (npm install minimathly) for community usage.

Team Members

Name	Email ID	Contact	Designation
Deepanshu Soni	Deepanshu.soni@skfin.in	8854076787	Software Analyst
Lokesh Jha	Lokesh.jha@skfin.in	8107722506	Software Analyst
Jagveer Sandhu	Jagveer.sandhu@skfin.in	8690595511	AI Engineer
Eriya Jain	Eriya.jain@skfin.in	7877246057	AI Engineer

1. Company Feedback:

Parameters	Rating (out of 5)	Remarks
1. Management Policies	5	Transparent, supportive, and well-structured governance.
2. Employee Friendly	5	Collaborative environment; mentors and leads are very approachable.
3. Timing / Punctuality	5	Strict adherence to professional working hours and daily attendance tracking.
4. Learning Opportunities	5	Excellent exposure to modern enterprise tech stacks, AI security, and full-stack development.
Best Practices : Strong mentorship support, informative supervision, and open knowledge-sharing culture across the engineering division.		

2. Training Feedback

A. General Parameters (Tick the relevant answer)			
1. On average, how long did you work in a week?	< 30 Hrs	40–50 Hrs ✓	> 50 Hrs
2. How often did you meet your Manager?	Daily ✓	Weekly	Rarely
3. Is your learning in Internship aligning with your role?	Yes ✓	No	No Idea
4. Did you identify your scope of learning?	Yes ✓	No	No Idea
5. Did you get timely help, support, and guidance when you needed from your company?	Yes ✓	No	No Idea
6. Will you suggest the same company to others?	Yes ✓	No	No Idea

B. Contribution of Training in your grooming (Scale: 5 = Excellent, 4 = Very Good, 3 = Good, 2 = Average, 1 = Poor)					
1. I learnt time management and to deal with pressure	5✓	4	3	2	1
2. I learnt problem solving	5✓	4	3	2	1
3. It improved my presentation skills	5✓	4	3	2	1
4. It improved my oral communication	5✓	4	3	2	1
5. It enhanced my learnings	5✓	4	3	2	1
6. It prepared me to face the competitive professional world	5✓	4	3	2	1
